### **DETAILED ACTION**

This Office Action is in response to the communication filed on 03/17/2008.

Claims 5-7 have been cancelled.

Claims 1 and 8 have been amended.

Claims 1-4 and 8-16 have been examined and are pending.

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/25/2008 has been entered.

#### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

**Claims 1-4 and 8-16 are rejected under 35 U.S.C. 101** because the claimed invention is directed to non-statutory subject matter.

**Claims 1-4 and 8-16** recite “*A digital signature scheme based on braid groups conjugacy problem...*,” which raises a question as to whether the claims are directed merely to **an**

**abstract idea and mathematical algorithm** that are not tied to a technological art, environment, or machine which would result in a practical application producing a concrete, useful, and tangible result to form the basis of statutory subject matter under 35 USC 101.

### ***Allowable Subject Matter***

The claims 1-4 and 8-16 will only be allowed if the 101 rejection is overcome.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 8, the Examiner agrees with the Applicant's argument that the prior art does not teach the use of third braid  $a$  generated from the braid group  $B_n(l)$  and making meet  $x' = a^{-1}x a$ . Since no teaching or motivation can be found of third braid  $a$  generated from the braid group  $B_n(l)$  and making meet  $x' = a^{-1}x a$  in Braid group, claims 1 and 8 are therefore novel and non-obvious.

Claims 2-3 and 13-14 depend on claim 1, and are therefore considered as allowable claims.

Claims 9-12 and 15-16 depend on claim 8, and are therefore considered as allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons for Allowance".
